This fact sheet provides information about various national, regional, and state hospital and healthcare pledge programs aimed at promoting healthy food and beverage environments that include (currently or in earlier phases) a focus on beverages. For each program, the following information is provided in the table below:

- an explanation of the commitments — with a focus on the beverage-related commitments;
- contacts and useful links; and
- the number of participating hospitals or systems.

Some pledge programs are specifically designed for hospital participation while others are more general. Hospitals that have made commitments that go beyond minimum standards in the pledge programs are also identified. There are also many varieties of “Rethink Your Drink” and other types of individual pledge programs or media campaigns; however, the table focuses on voluntary pledge programs specifically aimed at promoting policy or systems change in and across healthcare and worksite environments.
# National Healthy Hospital Food and Beverage Programs

## Program Details

**Healthier Hospitals Initiative (HHI) Healthier Food Challenge**

*HHI is a program of Practice Greenhealth (formerly a joint project of Health Care Without Harm, the Center for Health Design, and Practice Greenhealth)*

## Key Points and Commitments

**Beverage commitments**

- Increase healthy beverage* purchases by 20% over a baseline year; or
- Increase healthy beverages to 80% of total beverage purchases for use throughout the hospital (patient, retail, vending, and catering)

*Healthy beverages = water (seltzers and flavored waters), 100% fruit juice (4 oz), 100% vegetable juice (<140 mg sodium), milk (unflavored AND Certified Organic or rBGH-free), non-dairy milk alternatives (unsweetened), teas and coffee (unsweetened with only naturally occurring caffeine).*

## Food and other commitments

The HHI Healthier Food Challenge program offers two other levels of food-related commitments:

- Balanced Meals (decrease purchases of meat by 20% from baseline within three years); and
- Local and Sustainable Food (increase purchases of local or sustainable food by 20% annually or increase local or sustainable food purchases to 15% of total food purchases within three years).

HHI also offers other pledge categories designed to promote healthier healthcare systems, including: Engaged Leadership, Leaner Energy, Less Waste, Safer Chemicals, and Smarter Purchasing.

## Participating hospitals

At least 37 healthcare systems, comprising nearly 500 hospitals in 37 states and the District of Columbia.
# National Healthy Hospital Food and Beverage Programs

## Program Details

### Hospital Healthier Food Initiative

* A Partnership for a Healthier America program

## Key Points and Commitments

### Beverage commitments

- Limit unhealthy beverages to a maximum of 20% of drinks available in the hospital.
- Increase the percentage of “better-for-you beverages”* to 80% of overall beverage purchases by Dec. 31, 2015.
- Make tap water or access to water stations available where possible.

* Better-for-you beverages include: water (including fruit-flavored seltzers), 100% fruit and vegetable juices (≤4oz and <140 mg of sodium), milk (unflavored), dairy alternatives (unsweetened), tea and coffee (unsweetened with naturally occurring caffeine), non-caloric beverages (≤ 5 calories).

### Food commitments

- Provide labeling with calorie counts for all food and beverages in cafeterias and on patient menus.
- Create “wellness meals” for cafeteria and patient menus that meet defined nutritional profiles and price those meals equal to or less than the cost of other meal options.
- Remove all deep-fat fryers and deep-fried products from hospital cafeterias and patient menus.
- Market only healthy food and beverage items in cafeterias.
- Meet defined nutritional standards for 60% of entrees and side dishes.
- Increase fruit and vegetables to 10% of total food spending or increase spending on fruits and vegetables by 20% per year.

### Participating hospitals

Launched in 2012 with 17 hospital systems; more than 700 hospitals, or 10% of all hospitals nationwide, have made commitments.

## Key Points and Commitments

**Beverage commitments**

- Check and repair all on-site water fountains.
- Distribute and post information about facility water fountain locations, the benefits of water, and the dangers of sugary beverages.
- Adopt a healthy beverage* policy that includes the King County Board of Health's Healthy Vending Guidelines18 and connect it to the organization's mission statement.
- Prominently place healthy beverages in vending machines, cafeterias, and places where food is sold.
- Eliminate super-size options and limit serving sizes of sugary drinks to 12 ounces or less.
- Make healthy beverages the default option served with any children's menu items.
- Provide only healthy beverages at all organizational meetings, functions, conferences, and parties.
- Phase-out corporate sponsorships, advertisements, and free giveaways from unhealthy food and beverages companies.

* Healthy beverages = water, low and non-fat milk, diet drinks, unsweetened coffee or tea, and small portions (6 ounces) of 100% fruit juice.

## Participating hospitals

At least five health systems and hospitals in the Seattle area19

Individual Hospitals and Healthcare Systems

Many hospital and healthcare systems have designed their own healthy food and beverage initiatives or policies. Many of these hospitals also participate in one of the national or regional pledge programs described above and have decided to go beyond the program commitments. The strategies vary, but the practices of eliminating sugary drinks at some or all service points, providing nutritional information at vending machines, and increasing the availability of healthy beverages (such as low or nonfat milk, unsweetened coffees and teas, waters and seltzers, and 100% juice) are typical across programs.

Below is a non-exhaustive list of hospitals or health systems that have publicly stated that they have adopted policies or pledged to eliminate sugary beverages. There likely are other hospitals that have adopted similar policies but have not chosen to publicize their efforts.

Allina Health, Minnesota, 12 hospitals
Baylor Health Care System, Texas
Carney Hospital, Massachusetts
CentraCare, Minnesota, eight hospitals, over 30 clinics, 11 senior housing facilities, seven long-term care facilities
Children's Mercy Hospital, Missouri
Children's Minnesota Health System, Minnesota, 2 hospitals, 12 clinics and 6 rehabilitation sites
Cleveland Clinic, Ohio
Dartmouth-Hitchcock Medical Center, New Hampshire
Dayton Children's Hospital, Ohio
Essentia Health, Fosston - Minnesota
Fairview Health Services, Minnesota, 13 hospitals
Fairview Hospital, Massachusetts
Geisinger Health System, Pennsylvania & New Jersey, 13 hospital campuses
Gifford Medical Center, Vermont
Grand Itasca Clinics & Hospital, Minnesota
Hudson Hospital, Wisconsin
Indiana University Health System, Indiana
Jefferson Medical Center, West Virginia
Louis A. Weiss Memorial Hospital, Illinois
Lucile Packard Children's Hospital, California
Nationwide Children's Hospital, Ohio
Park Nicollet, Minnesota, Methodist Hospital and all clinics
Prisma Health, formerly Greenville Health System, North Carolina, 8 hospitals
ProMedica Health System, Ohio & Michigan, 13 hospitals
Providence Health & Services, Alaska, California, Montana, Oregon, Washington
San Francisco General Hospital, California
San Mateo Medical Center, California
Seattle Children's Hospital, Washington
St. Luke's Hospital, Minnesota, main hospital campus and all clinics
University of California, San Francisco Hospitals and Clinics, California
University of Michigan Health System, Michigan, all hospitals, health centers, administrative buildings, and the Medical School
University of Pennsylvania Health System, Pennsylvania, 13 hospitals and facilities
University of Wisconsin Health Systems, Wisconsin, 6 hospitals
West Suburban Medical Center, Illinois
Westlake Hospital, Illinois
Individual Hospitals and Healthcare Systems

Below is a non-exclusive list of hospitals and health systems that have publicly adopted policies or pledged to decrease the availability of sugary drinks and/or increase healthier beverage offerings. There likely are other hospitals that have adopted similar policies but have not chosen to publicize their efforts.

Advocate Health Hospitals, Illinois
Baptist Health South Florida, Florida, 10 hospitals
Connecticut Mental Health Center, Connecticut
HealthPartners, Minnesota & Wisconsin, 5 hospitals and all clinics
John Hopkins Medicine, Maryland
Norton Healthcare, Kentucky
Oregon Health and Science University
Overlake Medical Center, Washington
Rady Children’s Hospital, California
Southern Maine Medical Center, Maine
St. Elizabeth’s Medical Center, Massachusetts
Watertown Regional Medical Center, Wisconsin
